LITTLE INTEREST IN LAST SESSION OF COUNCIL

Ver. Little Business Of Importance For Attention Of Councilmen.—Eight Present

NICHOLS STREET OPENED SOON

The town council held a brief session in the council chamber last evening. When President Fletcher called the meeting to order but seven of the twelve members were in their seats. After the minutes of the previous session had been read and approved Street Commissioner Graham reported on the street work done during past two weeks. Mr. Graham's report showed that many crossings were being built throughout the borough and other necessary work being done. The Highway department reported progress of Nichols street paving and that while this work which was started May 13th had been interfered with and retarded greatly by rain, cement base had been finished on 16th and as it was necessary to set before putting the brick work on the brick laying would be ended on Monday next and the opened for traffic in a day or thereafter.

RUSSIA TO STAY IN THE RANKS OF ALLIES

All Russia Conference of Soldiers and Workmen's Council Resolve On Offensive

ORGANIZING TO COOPERATE

Petrograd, June 21.—The all-Russia conference of the Workman's and Soldier's council today resolved upon an immediate Russian offensive. The unanimous vote indicated that even the Petrograd council of the Workman's and Soldier's delegates which has heretofore been in favor of peace has turned to a continuance of war in view of the war sentiment that entered into the all-Russia conference. Another evidence of the crystallization of sentiment that Russia will fight and fight at once was displayed today in a manifesto by the military unit of the women's division. "The women are appealing for an unrelenting struggle against an enemy which is moved solely by imperialistic and slaving tendencies, it said. We expect our allies to charitably consider Russia's differences and excuse our absorption in the task of co-operation."

FISH CODE TO GOVERNOR! MANY CHANGES IN LAW

Harrisburg, June 21.—The code regulating the catching of fish in inland waters of Pennsylvania was sent to the governor today after senate amendments had been concurred in by the house. The code repeals and replaces virtually all the existing acts excepting the laws prohibiting fishing by aliens and the pollution act of 1876.

The bill fixes the open seasons and size and creel limits for game fish as follows, taking effect January 1, next:

Trout (except lake trout), open season, April 15 to July 21; size limit, 6 inches; creel limit twenty-five.

Bass (large and small mouth), open season, July 1 to December 31; size limit, 9 inches; creel limit, twelve.

Rock (white calico and strawberry) open season, July 1 to December 31; size limit, 6 inches; creel limit, twenty-five.

Lake or salmon trout; open season, July 1 to September 30; size limit, no limit; creel limit, no limit.

Pike, perch, wall-eyed pike or Susquehanna salmon; open season, July 1 to December 31; size limit 12 inches; creel limit, twenty-five.

Pickering; open season, July 1 to December 31; size limit, 12 inches; creel limit, twenty-five.

Muscalonge; open season, July 1 to December 31, size limit, 24 inches; creel limit, four.

Yellow perch; open season, July 1 to December 31; size limit, 6 inches; creel limit, fifty.

Sunfish, no closed season; size limit, no limit; creel limit, fifty.

Sturgeon fishing is prohibited. The use of seines, spears, gigs or outlines or lines bearing more than three hooks are forbidden, excepting that a small dip-net or minnow seine net not more than four feet in diameter may be used for the taking of bait fish only.

A minnow trap with an opening not more than one inch in diameter is also permitted for taking bait fish.

The use of seines and dip-nets is permitted in the Susquehanna below McCall's Ferry dam under license, for taking shad, herring and alewife, suckers, catfish, eels and carp only from March 1 to June 20.

The pollution section of the bill forbids the use of explosives electricity or poison in taking fish, or otherwise to pollute streams.

The purchase or sale of any species of trout, except lake trout, or of any large mouth or small mouth bass is forbidden.

AN EXCELLENT RECORD

Clearfield County's part in the work is getting attention from high places. The following telegram was received from The National War Council at Washington yesterday evening by President J. Frank Snyder.

J. Frank Snyder, Red Cross Headquarters, Clearfield, Pa.

War Council inspired by patriotism and enthusiasm of Clearfield. Your citizens are demonstrating that Americans will not be content to perform their patriotic duties by proxy.

HAROLD BRADDOCK, Secretary for War Council

Mr. Snyder immediately dispatched the following reply pledging Clearfield's material support:

War Council, American Red Cross Washington, D. C.

Thanks for kind message. Clearfield boys now with Pershing, others eager to be there. Clearfield stands behind her boys.

Shoplifters Continue To Ply Their Trade

Out of Town Woman Taken During Watch Yesterday Afternoon

The shoplifters continue to shoplift, according to yesterday's returns from the business district. Yesterday, afternoon the look out at a Market street establishment saw a woman customer purloin a bunch of hair pins from one of the counters and then beat it out onto the street. He quickly called the manager's attention to the matter and a clerk was sent after the offender and she was brought back to the store.

The shoplifter was taken back to the office and charged with the crime. In the meantime word was sent to the police and about the time Officer Eadie arrived on the scene the woman had begun to break down and was just in shape to summon tears—the never-failing feminine defense—to her aid. The sight of the blue clothes and brass buttons appeared to have the effect of disarranging her interior plumbing to the extent that the tears failed her, but the tender hearted manager considered her outpourings and apologies more than sufficient and allowed her to depart on her promise to never offend in this particular again.

Treasonable Banner Is Again Erected

Men on Capital Grounds Quickly Demolish Insulting Boards

Washington, June 21.—Amid the cheers of a small crowd a banner denouncing the President and Elihu Root placed at the northeast gate to the White House today by suffragets was ripped down by two men five minutes after it appeared. The sign was placed there by Miss Katherine Morcy, of Boston, and Miss Lucy Burns, of Brooklyn. The legend on the banner is identical with the one which was torn down yesterday.

Screaming "traitors" an angry mob led by Mrs. De Richardson attacked the suffrage pickets on guard at the White House entrances and took the yellow banners and tore them to shreds. Miss Hazel Humkins, one of the pickets, scrambled on the fence and waved the yellow banner. Mrs. Richardson followed her and a struggle ensued.

BOILER EXPLOSION KILLS THREE TRAINMEN

(By United Press)

Pittsburg, June 21.—Explosion of a boiler in a Pan Handle freight engine today killed three men at Thornburg near here. The dead are: Warren Carlisle, aged 35, engineer, Walter Allenworth, aged 23, brakeman, G. D. Buffington, aged 22, fireman. All are residents of Carnegie. Allenworth was thrown 200 feet and landed in a field. He was dead when observers of the accident reached him.

HONOLULU GIVES \$7,000 TO THE RED CROSS

Wash., June 21.—\$50,000,000 of the \$100,000,000 asked of the American Red Cross relief fund has now been subscribed according to returns to the Red Cross headquarters today. New York is running a close race with the rest of the United States. Delaware and Utah are two states which have exceeded their quota. Many cities including Honolulu from which no returns were expected have reported. Honolulu reported \$7,000.

NEW YORKER KILLS WIFE AND FAMILY

New York, June 12.—Following a family quarrel over lack of household money Richard Barry, aged 31 murdered his wife, his son, Kilton, aged 4, and son Donald, aged 18 months and attempted to kill his son and daughter, aged 9 and 13 years respectively after which he committed suicide.

AMERICAN FLOTILLA IN CENTER OF DANGER ZONE IN MOMENTARY DANGER OF U-BOAT ENCOUNTER

Letter From Clearfield Boy In French Camp

Guy Lawhead Writes His Mother From French Base Hospital

Following is a letter from Guy Lawhead, the first Clearfield county boy to reach the firing line after Uncle Sam asked for volunteers.

Note how the Censor operates on letters from the war zone. Will not even allow the name of their base city to be given:—

May 27, 1917

At Camp in France

Dear Mother and All at Home:

At last we are settled in camp, after roaming for three weeks. We had a very nice time while we were in England. There were many places to go and so much to see that the time passed all too quickly.

Saturday we were given permission to visit the city in which we have our camp. Here again we found many places of great interest. Although at first our insufficient knowledge of French is a great hindrance to our progress.

I was fortunate enough to meet a British officer who had spent a good deal of time in the states before the war and who is a graduate of one of our American colleges. He accompanied three of our bunch Saturday afternoon and took us many places where there was much of interest to see.

I suppose there is much excitement in the States now since they have started sending troops across. We left before the recruiting was actually started.

Did you receive my trunk and books from school? I did not have time to find out about my stuff when I went back to school. I only had one hour between trains, so barely had time to go up to the "frat" house and get dinner and change clothes. I sent my suit case back home from Liverpool. No doubt you have already received it, also several letters which I wrote from there.

Well, dear, do not be anxious if you do not hear from me very often because it takes quite a while for the letters to get through the censors office, then it takes about two weeks before they reach you.

The weather here is much the same as it is at home, only perhaps a little warmer. Some of the fellows are enjoying the fine weather by playing baseball, others by reading and some by sleeping.

Well at present there is little more that I can write about so will have to close, hoping to hear from you real soon. I am ever your son

WANTS MOOLEY TO MAKE MORE OF A NOISE

A Mt. Joy resident called The Progress about noon today, and requested that Chairman Usher of the Red Cross brigade prod Old Mooley with a pitchfork to make her bawl louder.

He averred that her siren voice was not heard and the Mt. Joy solicitors did not get to work until near noon.

James Mahaffey left for Reynoldsville this morning to attend the funeral of S. B. Elliot. From there he will go to Brookville to see his horse, Harvest Queen.

German Born American Sailor Sights Submarine And Points It Out To His Superior Officers

CONFIDENT SUB. WAS SENT DOWN

By J. W. Pegler

At The Base of The American Flotilla in England.

A German submarine was rammed and sunk by an American destroyer after a German born blue jacket spied the undersea craft, according to the belief expressed by the crew of an American sea water dog which returned to port today.

This is the first German submarine to be sunk by a patrol of the flotilla. The destroyer in question was riding on a calm sea when directly ahead the forward lookout sighted the periscope of a submarine which almost immediately submerged. By that time the submarine was so close to the destroyer that its guns could not be fired. All the crew of the destroyer lined the rail eagerly scanning the water for the sub-surface shadows which would reveal the enemy craft. When the German born blue jacket in the crow's nest frantically shouted "there she is," the submarine being directly along side the destroyer, the American commander instantly swung the ship around. The crew are certain they felt the impact of a collision but even if the submarine was not rammed those who told the story said today that it was likely the devices which were brought into play by the American destroyer would finish the job.

"The folks back home" in the United States can be sure that the American fleet is in the thick of things. Yesterday a German U-boat torpedoed a British ship at the port where the American destroyers make their base—and at a time when two American vessels of the fleet were convoying the vessel.

American Socialists Do Their Bidding

Help to Make Stockholm Conference Permanent as Wished by Germany

(By United Press)

Stockholm, June 21.—The self-styled American delegates to the German controlled peace conference played directly into the hands of the Germans today. They notified the Dutch-Scandinavian committee that they would recommend that the present conference be made permanent during the period of the war. That is exactly as the Germans planned. The Prussians here are exceedingly anxious to have the meetings here drag along in order that the peace plotting may be carried on.

Choose between the Red Cross and the Iron Cross.

The American flotilla has bagged its first submarine. Now keep the good work going.

The County National Bank building is looking like a new building since the scrubbers have started to work on it.

An old song runs "I hear the cattle lowing in the lane." Wish the author was here to hear old Mooley low on Second street.

Since the Farm Bureau has purchased enough buckwheat seed to plant a thousand acres, Clearfield county bids fair to wrest the title of "Buckwheaters" from residents of Indiana county.

It is indeed wise to have nurses remain at home until they are called. We may need them by the thousand to take care of another infantile paralysis epidemic or an epidemic in some of the concentration camps.

DuBois is finally waking up to the fact that this is Red Cross Week. The Daily Express announced yesterday afternoon that the DuBois people are becoming educated in the work. No figures are given as yet.

It may be alright to let Congress run the war but we doubt it. Army officials have picked several camp locations but are forced to make new selections owing to the objections of certain Congressmen who desire army camps in their districts.

These days one has to have a Liberty Bond in his pocket, a flag on his coat lapel and a membership card in the Red Cross Society. If one is between the ages of 21 and 31 he must carry his Registration Card. All of these things are required.

"Green Stockings" was the name of the Junior class play which almost dethroned the head of the DuBois schools. Showing of "Green Stockings" threatened to creat as much havoc in DuBois as it would have in County Ulster, Ireland.

Daddy's Bedtime

Story—

KARL KATZ
IN A CAVE

Out of the Cave Came a Little Dwarf.

(Adapted from Grimm's Fairy Tales.)
DADDY and the children hurried on to the lounge to begin to "bedtime story." When Karl Katz lost his pet goat and found her in a cave he still could not find where the dropping corn she ate came from. As he stood listening he thought he heard the neighing and tramping of horses.
"Karl listened again and soon felt sure he was right. He decided that horses were feeding overhead and that the dropping corn fell from their mangers.
"What horses could these possibly be that were kept in a cleft of rocks, where none but a goat's foot ever trod?
"There must be people of some sort living here. Who could they possibly be? Was it safe to trust himself to such company? Karl pondered awhile and his wonder kept growing greater and greater, when all of a sudden he heard his own name called. "Karl Katz!" echoed through the cave.
"He turned around, but could see nothing. "Karl Katz!" echoed sharply in his ears again. And out of the cave came a little dwarfish figure, with a high peaked hat and a scarlet cloak. Toward him the little figure came from the darkest corner of the cave.
"The dwarf nodded to Karl and beckoned him to follow. Karl decided that he would like to know something about this strange little man that wanted his company enough to call him by name.
"So Karl asked the dwarf who he was. But the dwarf shook his head, answering not a word. And again he beckoned Karl to follow.
"Then Karl followed. Winding his way through the ruins of an old castle he soon heard rolling overhead what sounded like peals of thunder echoing among the rocks. The noise grew louder and louder as he went on, and at last he came to an old courtyard shut in by walls all covered with ivy.
"The spot seemed to be the heart of a little valley. Above on each side arose high masses of rocks. Wide branching trees threw their arms overhead. Nothing but glimmering twilight made its way through the leaves. And here on the cool, smooth shaven turf Karl saw twelve strange old figures amusing themselves very solemnly with a game of ninepins.
"Their dress did not seem strange to Karl, for in the church where he went every Sunday there was a monument with figures of queer old men playing nine pins were now. It was a most amusing sight," daddy ended.

Cincinnati authority tells how to dry up corn so it lifts out.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without pain.

A quarter of an ounce of freezone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

GLASS OF WATER BEFORE YOU EAT ANY BREAKFAST

Wash poison from system each morning and feel fresh as a daisy

Every day you clean the house you live in to get rid of the dust and dirt which collected through the previous day. Your body, the house, your soul lives in, also becomes filled up each twenty-four hours with all manner of filth and poison. If only every man and woman could realize the wonders of drinking phosphated hot water, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nervous wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

Everyone, whether sick or well, should drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels, the previous day's indigestible waste, sour fermentations and poisons thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick, headaches, biliousness, nasty breath, rheumatism, colds; and particularly, those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

DESTRUCTIVE TENANT MAKES LANDLORD WEALTHY

Rio de Janeiro, June 5.—By Mail—Dr. Marcel da Silva rented his house in a suburb of this city to a negro family. His tenants left recently without paying the rent, and adding insult to injury, stole all the electric wiring and plumbing fixtures in the house. They even tore up an underground lead pipe leading to the water main. The doctor sat on the veranda of the vacated house contemplating the iniquity of tenants in general when he noticed a peculiar metallic gleam in the trench where the pipe had been torn out. The gleam was caused by mercury oozing from the clay. The mercury mine will probably make the doctor a millionaire.

EASY TO DARKEN
YOUR GRAY HAIR

You can Bring Back Color and Lustre
With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

RAISING RINGNECK PHEASANTS

A. E. Leitzinger, the Lawrence township farmer, could give the State Game Commission some pointers on the raising and propagation of ringneck pheasants if the aforesaid Commission was willing to hold still long enough. Last year Mr. Leitzinger raised more than twenty birds from two settings of eggs and this year he already has forty young birds and two other hens sitting.

Last year Mr. Leitzinger's pheasants escaped just before the hunting season and pot hunters went right up to his back porch and killed all but about seven of them. These seven have located in the woods adjoining Mr. Leitzinger's bungalow farm and a number of young ones have been seen in that vicinity also.

The ring neck pheasant grows larger than our native bird and more of an effort should be made to stock our woods with them.

THE PRINCE AND THE PAUPER

Special at the Globe Tomorrow

The presentation on the screen of "The Prince and the Pauper," the foremost work of America's greatest humorist, Mark Twain, and the first of his beloved tales to be pictured, represents another decisive triumph for the Famous Players Film company. In the superb five-part photoplay adaptation of this celebrated and fascinating romance, Marguerite Clark stars in the dual-title role, in which her remarkable interpretation of the contrasting characters will rank with the few greatest histrionic feats of the screen. The production vividly portrays the weary little prince who longed to play beggar for a day, and of the ambitious little beggar who yearned to be a prince, both of whom, through their remarkable resemblance to each other, suddenly find their hearts' desires gratified in a totally unexpected and intensely dramatic manner. Later each longs to return to his former and natural mode of existence, a transition which is effected in the further development of the story.

GEARHART—EVANS

A very pretty home wedding took place this morning at 7:30 when Miss Susan Gearhart, daughter of Mrs. S. R. Gearhart was united in marriage to Harry Evans, son of Mr. and Mrs. William Evans, of Dorey street at the bride's home on William street in the presence of the immediate families. Rev. Collins of the Eleventh street M. E. church performed the beautiful ring ceremony.

The bride was married in her traveling suit which was gray with hat and shoes to match.

Miss Esther Evans and Guy Evans, brother and sister of the groom were the attendants.

The couple left on the 8:20 P. R. R. for a wedding trip to New York, Philadelphia and Atlantic City. After which they will make their home with the bride's mother on Williams street.

Mrs. Evans is a popular and charming Clearfield girl being a graduate of the Clearfield high school and having been employed in the H. & C. telephone office.

Mr. Evans is the efficient manager of the Kurtz Bros. Stationery store. There hosts of friends here wish them much success and happiness.

OBJECT TO GARBAGE INCINERATOR

DuBois City Council recently let a contract for a garbage incinerator for their city and work has already been started on its erection. At last night's adjourned session of Council attorney James A. Gleason appeared on behalf of D. E. Hibner and other citizens and notified Council that they proposed asking the Clearfield county courts for an injunction restraining the erection of the incinerator at this point, claiming it would prove to be a nuisance. The contractor claims his furnace is odorless and the work will not be stopped unless the court so directs after proper hearing.

LITTLE INTEREST IN LAST SESSION OF COUNCIL

Ver. Little Business Of Importance For Attention Of Councilmen.—Eight Present

NICHOLS STREET OPENED SOON

The town council held a brief session in the council chamber last evening. When President Fletcher called the meeting to order but seven of the twelve members were in their seats. After the minutes of the previous session had been read and approved Street Commissioner Graham reported on the street work done during past two weeks. Mr. Graham's report showed that many crossings were being built throughout the borough and other necessary work being done. The Highway department reported progress of Nichols street paving and that while this work which was started May 13th had been interfered with and retarded greatly by rain, cement base had been finished on 16th and as it was necessary to set before putting the brick on the brick laying would be ended on Monday next and the opened for traffic in a day or thereafter.

ordinance providing for curbs and gutters on Spruce which was introduced May 18th in up for final passage and unanimously adopted.

Highway department having made a claim for \$40 Turnpike avenue property surface water runoff June 1st and June 3d is laid on the table.

RUSSIA TO STAY IN THE RANKS OF ALLIES

All Russia Conference of Soldiers and Workmen's Council Resolve On Offensive

ORGANIZING TO COOPERATE

Petrograd, June 21.—The all-Russia conference of the Workman's and Soldier's council today resolved upon an immediate Russian offensive. The unanimous vote indicated that even the Petrograd council of the Workman's and Soldier's delegates which has heretofore been in favor of peace has turned to a continuance of war in view of the war sentiment that entered into the all-Russia conference. Another evidence of the crystallization of sentiment that Russia will fight and fight at once was displayed today in a manifesto by the military unit of the women's division. "The women are appealing for an unrelenting struggle against an enemy which is moved solely by imperialistic and slaving tendencies," it said. We expect our allies to charitably consider Russia's differences and excuse our absorption in the task of co-operation."

FISH CODE TO GOVERNOR! MANY CHANGES IN LAW

Harrisburg, June 21.—The code regulating the catching of fish in inland waters of Pennsylvania was sent to the governor today after senate amendments had been concurred in by the house. The code repeals and replaces virtually all the existing acts excepting the laws prohibiting fishing by aliens and the pollution act of 1876.

The bill fixes the open seasons and size and creel limits for game fish as follows, taking effect January 1, next:

Trout (except lake trout), open season, April 15 to July 21; size limit, 6 inches; creel limit twenty-five.

Bass (large and small mouth), open season, July 1 to December 31; size limit, 9 inches; creel limit, twelve.

Rock (white calico and strawberry) open season, July 1 to December 31; size limit, 6 inches; creel limit, twenty-five.

Lake or salmon trout; open season, July 1 to September 30; size limit, no limit; creel limit, no limit.

Pike, perch, wall-eyed pike or Susquehanna salmon; open season, July 1 to December 31; size limit 12 inches; creel limit, twenty-five.

Pickering; open season, July 1 to December 31; size limit, 12 inches; creel limit, twenty-five.

Muscalonge; open season, July 1 to December 31, size limit, 24 inches; creel limit, four.

Yellow perch; open season, July 1 to December 31; size limit, 6 inches; creel limit, fifty.

Sunfish, no closed season; size limit, no limit; creel limit, fifty.

Sturgeon fishing is prohibited. The use of seines, spears, gigs or outlines or lines bearing more than three hooks are forbidden, excepting that a small dip-net or minnow seine net not more than four feet in diameter may be used for the taking of bait fish only. A minnow trap with an opening not more than one inch in diameter is also permitted for taking bait fish.

The use of seines and dip-nets is permitted in the Susquehanna below McCall's Ferry dam under license, for taking shad, herring and alewife, suckers, catfish, eels and carp only from March 1 to June 20.

The pollution section of the bill forbids the use of explosives electricity or poison in taking fish, or otherwise to pollute streams.

The purchase or sale of any species of trout, except lake trout, or of any large mouth or small mouth bass is forbidden.

Shoplifters Continue To Ply Their Trade

Out of Town Woman Taken During Watch Yesterday Afternoon

The shoplifters continue to shoplift, according to yesterday's returns from the business district. Yesterday afternoon the look out at a Market street establishment saw a woman customer purloin a bunch of hair pins from one of the counters and then beat it out onto the street. He quickly called the manager's attention to the matter and a clerk was sent after the offender and she was brought back to the store.

The shoplifter was taken back to the office and charged with the crime. In the meantime word was sent to the police and about the time Officer Eadie arrived on the scene the woman had begun to break down and was just in shape to summon tears—the never-failing feminine defense—to her aid. The sight of the blue clothes and brass buttons appeared to have the effect of disarranging her interior plumbing to the extent that the tears failed her, but the tender hearted manager considered her outpourings and apologies more than sufficient and allowed her to depart on her promise to never offend in this particular again.

Treasonable Banner Is Again Erected

Men on Capital Grounds Quickly Demolish Insulting Boards

Washington, June 21.—Amid the cheers of a small crowd a banner denouncing the President and Elihu Root placed at the northeast gate to the White House today by suffragettes was ripped down by two men five minutes after it appeared. The sign was placed there by Miss Katherine Morcy, of Boston, and Miss Lucy Burns, of Brooklyn. The legend on the banner is identical with the one which was torn down yesterday.

Screaming "traitors" an angry mob led by Mrs. De Richardson attacked the suffrage pickets on guard at the White House entrances and took the yellow banners and tore them to shreds. Miss Hazel Humkins, one of the pickets, scrambled on the fence and waved the yellow banner. Mrs. Richardson followed her and a struggle ensued.

BOILER EXPLOSION KILLS THREE TRAINMEN

(By United Press)
Pittsburg, June 21.—Explosion of a boiler in a Pan Handle freight engine today killed three men at Thornburg near here. The dead are: Warren Carlisle, aged 35, engineer, Walter Allenworth, aged 23, brakeman, G. D. Buffington, aged 22, fireman. All are residents of Carnegie. Allenworth was thrown 200 feet and landed in a field. He was dead when observers of the accident reached him.

HONOLULU GIVES \$7,000 TO THE RED CROSS

Wash., June 21.—\$50,000,000 of the \$100,000,000 asked of the American Red Cross relief fund has now been subscribed according to returns to the Red Cross headquarters today. New York is running a close race with the rest of the United States. Delaware and Utah are two states which have exceeded their quota. Many cities including Honolulu from which no returns were expected have reported. Honolulu reported \$7,000.

AMERICAN FLOTILLA IN CENTER OF DANGER ZONE IN MOMENTARY DANGER OF U-BOAT ENCOUNTER

Letter From Clearfield Boy In French Camp

Guy Lawhead Writes His Mother From French Base Hospital

Following is a letter from Guy Lawhead, the first Clearfield county boy to reach the firing line after Uncle Sam asked for volunteers.

Note how the Censor operates on letters from the war zone. Will not even allow the name of their base city to be given:—

May 27, 1917
At Camp in France
Dear Mother and All at Home:

At last we are settled in camp, after roaming for three weeks. We had a very nice time while we were in England. There were many places to go and so much to see that the time passed all too quickly.

Saturday we were given permission to visit the city in which we have our camp. Here again we found many places of great interest. Although at first our insufficient knowledge of French is a great hindrance to our progress.

I was fortunate enough to meet a British officer who had spent a good deal of time in the states before the war and who is a graduate of one of our American colleges. He accompanied three of our bunch Saturday afternoon and took us many places where there was much of interest to see.

I suppose there is much excitement in the States now since they have started sending troops across. We left before the recruiting was actually started.

Did you receive my trunk and books from school? I did not have time to find out about my stuff when I went back to school. I only had one hour between trains, so barely had time to go up to the "frat" house and get dinner and change clothes. I sent my suit case back home from Liverpool. No doubt you have already received it, also several letters which I wrote from there.

Well, dear, do not be anxious if you do not hear from me very often because it takes quite a while for the letters to get through the censors office, then it takes about two weeks before they reach you.

The weather here is much the same as it is at home, only perhaps a little warmer. Some of the fellows are enjoying the fine weather by playing baseball, others by reading and some by sleeping.

Well at present there is little more that I can write about so will have to close, hoping to hear from you real soon. I am ever your son

Both young people have a host of friends who wish them a happy journey through life. The bride is a popular and charming young lady and the grooms is secretary of the Winburne Water company and also connected with the office force of the Pennsylvania Coal & Coke corporation at Winburne.

German Born American Sailor Sights Submarine And Points It Out To His Superior Officers

CONFIDENT SUB. WAS SENT DOWN

By J. W. Pegler

At The Base of The American Flotilla in England.

A German submarine was rammed and sunk by an American destroyer after a German born blue jacket spied the undersea craft, according to the belief expressed by the crew of an American sea water dog which returned to port today.

This is the first German submarine to be sunk by a patrol of the flotilla. The destroyer in question was riding on a calm sea when directly ahead the forward lookout sighted the periscope of a submarine which almost immediately submerged. By that time the submarine was so close to the destroyer that its guns could not be fired. All the crew of the destroyer lined the rail eagerly scanning the water for the sub-surface shadows which would reveal the enemy craft. When the German born blue jacket in the crow's nest frantically shouted "there she is," the submarine being directly along side the destroyer, the American commander instantly swung the ship around. The crew are certain they felt the impact of a collision but even if the submarine was not rammed those who told the story said today that it was likely the devices which were brought into play by the American destroyer would finish the job.

"The folks back home" in the United States can be sure that the American fleet is in the thick of things. Yesterday a German U-boat torpedoed a British ship at the port where the American destroyers make their base—and at a time when two American vessels of the fleet were convoying the vessel.

WANTS MOOLEY TO MAKE MORE OF A NOISE

A Mt. Joy resident called The Progress about noon today and requested that Chairman Usher of the Red Cross brigade prod Old Mooley with a pitchfork to make her bawl louder.

He averred that her siren voice was not heard and the Mt. Joy solicitors did not get to work until near noon.

James Mahaffey left for Reynoldsville this morning to attend the funeral of S. B. Elliot. From there he will go to Brookville to see his horse, Harvest Queen.

Class No. 6 of the Lutheran Sunday school will serve fresh strawberry sundae, cake and coffee in the church basement, Thursday afternoon, June 21st, from 3 to 8. Price 15 cents.

RED CROSS CAPTAINS SPECIAL NOTICE

I want every Captain to be on deck tonight at the School Building at 7:30 sharp. Ascertain if all your women aides have covered their district thoroughly. We will arrange for a big drive on Saturday and Monday. Vitally important that you be present.

American Socialists Do Their Bidding

Help to Make Stockholm Conference Permanent as Wished by Germany

(By United Press)
Stockholm, June 21.—The self-styled American delegates to the German controlled peace conference played directly into the hands of the Germans today. They notified the Dutch-Scandinavian committee that they would recommend that the present conference be made permanent during the period of the war. That is exactly as the Germans planned. The Prussians here are exceedingly anxious to have the meetings here drag along in order that the peace plotting may be carried on.

THURSDAY EVENING, JUNE 21, 1917

Choose between the Red Cross and the Iron Cross.

The American flotilla has bagged its first submarine. Now keep the good work going.

The County National Bank building is looking like a new building since the scrubbers have started to work on it.

An old song runs "I hear the cattle lowing in the lane." Wish the author was here to hear old Mooley low on Second street.

Since the Farm Bureau has purchased enough buckwheat seed to plant a thousand acres, Clearfield county bids fair to wrest the title of "Buckwheaters" from residents of Indiana county.

It is indeed wise to have nurses remain at home until they are called. We may need them by the thousand to take care of another infantile paralysis epidemic or an epidemic in some of the concentration camps.

DuBois is finally waking up to the fact that this is Red Cross Week. The Daily Express announced yesterday afternoon that the DuBois people are becoming educated in the work. No figures are given as yet.

It may be alright to let Congress run the war but we doubt it. Army officials have picked several camp locations but are forced to make new selections owing to the objections of certain Congressmen who desire army camps in their districts.

These days one has to have a Liberty Bond in his pocket, a flag on his coat lapel and a membership card in the Red Cross Society. If one is between the ages of 21 and 31 he must carry his Registration Card. All of these things are required.

"Green Stockings" was the name of the Junior class play which almost dethroned the head of the DuBois schools. Showing of "Green Stockings" threatened to create as much havoc in DuBois as it would have in County Ulster, Ireland.

Daddy's Bedtime

Story—

KARL KATZ
IN A CAVE

Out of the Cave Came a Little Dwarf.

(Adapted from Grimm's Fairy Tales.)
DADDY and the children hurried on to the lounge to begin to "bedtime story." When Karl Katz lost his pet goat and found her in a cave he still could not find where the dropping corn she ate came from. As he stood listening he thought he heard the neighing and tramping of horses.
"Karl listened again and soon felt sure he was right. He decided that horses were feeding overhead and that the dropping corn fell from their mangers.
"What horses could these possibly be that were kept in a cleft of rocks, where none but a goat's foot ever trod?
"There must be people of some sort living here. Who could they possibly be? Was it safe to trust himself to such company? Karl pondered awhile and his wonder kept growing greater and greater, when all of a sudden he heard his own name called. "Karl Katz!" echoed through the cave.
"He turned around, but could see nothing. "Karl Katz!" echoed sharply in his ears again. And out of the cave came a little dwarfish figure, with a high peaked hat and a scarlet cloak. Toward him the little figure came from the darkest corner of the cave.
"The dwarf nodded to Karl and beckoned him to follow. Karl decided that he would like to know something about this strange little man that wanted his company enough to call him by name.
"So Karl asked the dwarf who he was. But the dwarf shook his head, answering not a word. And again he beckoned Karl to follow.
"Then Karl followed. Winding his way through the ruins of an old castle he soon heard rolling overhead what sounded like peals of thunder echoing among the rocks. The noise grew louder and louder as he went on, and at last he came to an old courtyard shut in by walls all covered with ivy.
"The spot seemed to be the heart of a little valley. Above on each side arose high masses of rocks. Wide branching trees threw their arms overhead. Nothing but glimmering twilight made its way through the leaves. And here on the cool, smooth shaven turf Karl saw twelve strange old figures amusing themselves very solemnly with a game of ninepins.
"Their dress did not seem strange to Karl, for in the church where he went every Sunday there was a monument with figures of queer old men playing nine pins were now. It was a most amusing sight," daddy ended.

Ringling Liberty Bell For The Liberty Loan

On the last day the Liberty Loan Bonds were open for subscription Mayor Smith of Philadelphia went into Independence Hall and rang the Liberty Bell. It was the last call of the nation to subscribe to the loan. He tapped the bell thirteen times, one for each of the thirteen states. And the next day the loan was closed oversubscribed.

Cincinnati authority tells how to dry up corn so it lifts out.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without pain.

A quarter of an ounce of freezone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

GLASS OF WATER BEFORE YOU EAT ANY BREAKFAST

Wash poison from system each morning and feel fresh as a daisy

Every day you clean the house you live in to get rid of the dust and dirt which collected through the previous day. Your body, the house, your soul lives in, also becomes filled up each twenty-four hours with all manner of filth and poison. If only every man and woman could realize the wonders of drinking phosphated hot water, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nervewrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

Everyone, whether sick or well, should drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels, the previous day's indigestible waste, sour fermentations and poisons thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick, headaches, biliousness, nasty breath, rheumatism, colds; and particularly, those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

DESTRUCTIVE TENANT MAKES LANDLORD WEALTHY

Rio de Janeiro, June 5.—By Mail—Dr. Marcel da Silva rented his house in a suburb of this city to a negro family. His tenants left recently without paying the rent, and adding insult to injury, stole all the electric wiring and plumbing fixtures in the house. They even tore up an underground lead pipe leading to the water main. The doctor sat on the veranda of the vacated house contemplating the iniquity of tenants in general when he noticed a peculiar metallic gleam in the trench where the pipe had been torn out. The gleam was caused by mercury oozing from the clay. The mercury mine will probably make the doctor a millionaire.

Low Shoes At Low Prices

These Are Some That Have Been In Stock For A Time But On Account of the Unusual Conditions Existing in the Leather Market, They Are Particularly Good Values

Madam, if you are forehanded and are interested in supplying yourself with some low shoes for the summer, it will pay you to inspect the two tables in our shoe section.

Here we have arranged all these low shoes in two groups and they are marked at prices that represent in some cases less than half of their present value.

LOT NO. 1

This lot consists of misses and growing girls oxford pumps, Mary Janes in patent leather, kid, calf and cloth. They are widely assorted as to style and will be a wonderful aid to mothers in solving the shoe problem for the girls.

\$1.29

LOT NO. 2

For the women we have arranged this table just like the other and the kinds are about alike. If you are not looking for "fads" and are looking to your pocketbook this clean-out will enable you to have two pairs of low shoes in the place of one.

\$2.98

Polish For All Kinds of Shoes

We have just enlarged our usually complete list of different shoe polishes and cleaners, and you can now have everything for the cleaning of shoes. Included is a one for the preservation of patent leather. It's good.

CURWENSVILLE

Ever aggressive and progressive our local union is joining with our state and national Woman's Christian Temperance union in furnishing comforts and conveniences for our armed forces. 1500 comfort bags will thus be given to the state, part of which will supply the great battleship Pennsylvania. The national W. C. T. U. is equipping an ambulance with also a driver, for service in France. Unusually helpful will these comfort bags prove to be with among other things these contents: scissors, needles, pins, buttons, medicated cotton and gauze, a writing tablet and envelopes, postcards, a motherly letter, a copy of the New Testament. Our local workers are preparing fifty of these bags for the men on the Pennsylvania and an equal number for the soldiers yet at home. Now this work does not duplicate that of the Red Cross but in some points supplements it. It is noteworthy that the comfort bags furnished by the W. C. T. U. will have blue covers when destined for the navy and brown for the army. Such a work for our armed forces is to be heartily commended and generously supported.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat also take glass of Salts before eating breakfast

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog, you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region; you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the ether is bad.

Eat less meat drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

Unlike the present policy pursued in the United States, the British government discourages the erection of flagstaffs and the flying of flags during the war.

SOLDIERS' LETTERS

Young Wayne Johnson, the boy trooper of Clearfield finds the cavalry an interesting branch of the service. It is pleasing to note that he is aspiring to honors and making good use of his money.

Mercedes, Texas
June 12, 1917

Dear Mother and All:

I received the cakes and they certainly were good. I passed those chocolate cakes around to a few of my friends, and they wish to thank you very much. I got a card from Heb Showers with his picture on. He certainly looks good in it. Well we got our raise to \$30 a month, raise coming June 1st so that will be much nicer. I will send \$15 a month home and maybe more. I sure do like the army life. Everything is always going on and keeping a fellow busy. We are on the rifle range now and I am shooting fairly well. I shoot so that I think I will get a marksman's pin. I am shooting about 228 out of a possible 300 and it only takes 202 for marksman.

Mother the saddest thing in the army I have seen yet is yesterday our troop commander took us out for a swim.

There were about 110 men. We went to a lake down here. A few couldn't swim and the lake was about 1 mile long and 200 yds. wide. There was a wire cable stretched across and the ones that could not swim went out in the lake and kept hold of the wire and one fellow by the name of Corporal Gay let loose of the wire and tried to swim. He swam about 10 feet fine, when he began to think of what he did and he lost his strength and went down. A fellow had him when he came up and he pulled him down and he had to let go and the corporal drowned. He was one of the nicest fellows in the troop, too. You look in the papers

and see if it says anything about him. Well I guess I will close for this time.

Write soon, good bye
WAYNE
Troop D, 16th Cavalry

The following letter is from James Ball, son of Frank Ball of Hillside, Ft. Sam Houston, Texas

June 15th, 1917

Dear Mother and Father:

I just got the box of candy and peanuts you sent me and was glad to get it. A couple of other fellows and I have got it pretty well cleaned up. The chocolate was warm and spiced but it was certainly good and way. They handled the box pretty rough but that is what I expected. I got the letter with the handkerchief in it. I don't care what you do with my wheel because I don't expect to get back home for a great length of time and then it will only be for a short time. We have our packs and rifles and bayonets and everything we need waiting for a call. It may not come for a while yet but they say we will be sure to go. Don't worry about me getting in to any bad habits for I won't do anything of the kind. I am well and get black like they all are. I am getting bigger and fatter and of course I am straightened out. Well I guess I will have to start to shave the fuzz off my face as we have to be shaved smooth and our hair cut short all the time. We don't have to drill so much any more since we learned how. We have it quite easy the days we are on guard. I haven't seen one fellow from Clearfield yet around here.

I am sending you 5 dollars that I had left from the money I took with me. Put it in the bank for me. I will need it when I get back if I ever do. We will get paid soon. I have a little change yet to get my hair cut. Tell the boys at the brick yard to write to me. Now I must close and go to supper. Goodbye, with love to all.

Your Son
JIM

U. S. Marine Barracks
Paris Island, S. C.
June 15, 1917

My Dear Mother:

Tonight I am the happiest man in camp when the mail was called off, I received eleven letters and the two packages. Really Mother when I was reading your letters I was so happy that the tears rolled down my cheeks for joy. It surely was a long wait to get a line from mother, believe me. The packages were O. K. I will have to send some things home because I can not carry so much in my pack when we move from place to place. Be sure and let me know when you receive this package and also my bag.

I had a fine letter from John tonight. I am glad to hear they are getting along alright. Believe me Mother, I know what they are going through with. I really think I have it a little worse than they for I am in a field camp and you may know it is not quite so convenient as living in a permanent post. They eat off a table, I eat off the good old terra firma, they don't have to take a bath out of a bucket, in salt water at that, either. But in spite of the hardships and hard drill and work, I like it all for when I get through I will be a marine and that means something. They are recognized to be the best soldiers in the work barring none. Marine sharp shooters hold the world's championship for heavy arms shooting. These very men who hold this record will drill us on the rifle range. If a fellow don't make good during his training, they take him out of his company and put him at other work.

In about ten days we will move to the main barracks. There everything is right up to date, everything is fine and comfortable. They have free movies, all kinds of sport for the boys and swimming pools and the ocean, too. The famous U. S. marine band is stationed here. They give concerts three times daily and play for battalion drills. Mother, we certainly have one fine Sarg. We get to like him more every day. He is a soldier from the word go but a man too. He treats us square if we do

our part. He has us working on about the following scheme each day. Hit the deck 5 sharp, reveille roll call 5:15, first drill 5:30 to 7, chow at 7, immediately after chow we clean up and inspection at 7:30. Then 10 minutes to ourselves and we fall out for drill which lasts till 9 o'clock, 15 minutes rest and fall out again for drill till 11:30 to 12:30. Of course we get a little time to ourselves then, but during that time we are kept busy washing ourselves, polishing shoes, etc. Twelve thirty we take our buckets and walk about a mile to the oyster beds for a bucket of shells. Then we set right in to wash our clothes and take our bath. By the time this is all over it is after three. Then we are called out for school as we call it where we are taught military tactics. Then comes chow again at 4:30 sharp and at 5 we are out on the drill field again till dark. Then we are free till 10 when taps are sounded. Now of course some days they change things a little and give a little light work, for instance yesterday morning at 7:30 they hitched 30 of us to a big wagon and we went 5 miles to the barracks for a load of lumber. Can you imagine 30 men hauling a wagon 10 miles of the way, through nothing but sand. And too keep in mind that at 7 o'clock it is hotter down here than it ever was in Clearfield at 12. The perspiration rolled off of me like off a dog's tongue. Well Mother, I do my part and smile, smile, smile, try to learn all that's to be learned and to be the best soldier I can be. When I get back I will not have spent my time and sweat in vain. I am as hearty as a buck, never felt better in my life.

Mother there is just one thing I

would certainly like to have along with me, not only for my hands but for yours, too, and that is one of those small pocket Kodaks and camera films. There is so much I would like to have so I can always see those scenes before me. Every day I will see something new, perhaps in some foreign land. Then too I want you to see them as I see them.

Taps sounded and I had to sleep last night in a hurry. I believe I was talking about a pocket Kodak, I certainly think it would be worth having for in a few weeks I will be sailing for some foreign port, no doubt. But Mother I will leave it to you. You can stop at Kuntz's and look them over, remember the spine pocket folding Kodak.

I guess I will close for this time. It is about time for chow and I want to be heard of the line of boys hundred that eat at our gallery.

Love to all,
RUSSELL C. FLEGAL

P. S. Last night it was awfully cold. I had to get up and down to keep warm. That is the way it is down here, hot during the day and always cool at night. They have only given us one blanket yet.

EASY TO DARKEN
YOUR GRAY HAIR

You can Bring Back Color and Lustre
With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.

RAISING RINGNECK PHEASANTS

A. E. Leitzinger, the Lawrence township farmer, could give the State Game Commission some pointers on the raising and propagation of ring-neck pheasants if the aforesaid Commission was willing to hold still long enough. Last year Mr. Leitzinger raised more than twenty birds from two settings of eggs and this year he already has forty young birds and two other hens sitting.

Last year Mr. Leitzinger's pheasants escaped just before the hunting season and pot hunters went right up to his back porch and killed all but about seven of them. These seven have located in the woods adjoining Mr. Leitzinger's bungalow farm and a number of young ones have been seen in that vicinity also.

The ring neck pheasant grows larger than our native bird and more of an effort should be made to stock our woods with them.

The "flame-tree" which flourishes in the Illawarra district of New South Wales, is covered with red flowers, and can be seen by ships many miles out at sea, and serves as a guide to them.

THE MASTER PASSION
At the Tent Movies Tonight

Mabel Trunnelle and Robert Connors are the featured players in Edison's "The Master Passion," which will be the leading feature at the Tent tonight. They are supported by an exceptional cast, including such favorite players as Bigelow Cooper, Helen Strickland, Raymond McKee, Richard Tucker and Olive Wright. "The Master Passion," which is released through the Kleine-Edison Selig-Essanay-Service, is said to tell a fascinating story of a beautiful woman's rise, fall and ultimate regeneration.

THE PRINCE AND THE PAUPER
Special at the Globe Tomorrow

The presentation on the screen of "The Prince and the Pauper," the foremost work of America's greatest humorist, Mark Twain, and the first of his beloved tales to be picturized, represents another decisive triumph for the Famous Players Film company. In the superb five-part photoplay adaptation of this celebrated and fascinating romance, Marguerite Clark stars in the dual-title role, in which her remarkable interpretation of the contrasting characters will rank with the few greatest histrionic feats of the screen. The production vividly portrays the weary little prince who longed to play beggar for a day, and of the ambitious little beggar who yearned to be a prince, both of whom, through their remarkable resemblance to each other, suddenly find their hearts' desires gratified in a totally unexpected and intensely dramatic manner. Later each longs to return to his former and natural mode of existence, a transition which is effected in the further development of the story.

GEARHART-EVANS

A very pretty home wedding took place this morning at 7:30 when Miss Susan Gearhart, daughter of Mrs. S. R. Gearhart was united in marriage to Harry Evans, son of Mr. and Mrs. William Evans, of Dorey street at the bride's home on William street in the presence of the immediate families. Rev. Collins of the Eleventh street M. E. church performed the beautiful ring ceremony.

The bride was married in her traveling suit which was gray with hat and shoes to match.

Miss Esther Evans and Guy Evans, brother and sister of the groom were the attendants.

The couple left on the 8:20 P. R. R. for a wedding trip to New York, Philadelphia and Atlantic City. After which they will make their home with the bride's mother on Williams street.

Mrs. Evans is a popular and charming Clearfield girl being a graduate of the Clearfield high school and having been employed in the H. & C. telephone office.

Misses Winifred Dowler, Betty Krebs, Julia Wallace, and Margaret Thorne have a stand on the Lansing Snyder lawn on Second street and are selling lemonade, sandwiches, candy and peanuts for the benefit of the Red Cross. Already they have made six dollars. These are willing workers who deserve much praise.

Dr. and Mrs. Deimer of Philipsburg motored to Clearfield to shop yesterday.

Our Sale of White Wear Ends Saturday
When The Store Closes

This bare announcement will be all that will be necessary to hurry along last minute purchasers for, as we mentioned in our previous announcements, the white wear values offered are as important as any in past years. In many cases, we shall not be able to duplicate them. Prompt purchasing is, therefore, not alone desirable, but essential, if you want to practice true economy.

ARE YOU A PATRIOT?

If you are—prove it! The Red Cross Society gives us a splendid opportunity to show we have red blood to back up our honor. There is no need of telling what the Red Cross is doing—every one of us know.

THE SOCIETY MUST HAVE MONEY

Are you doing your "bit" today? When the agent calls for your subscription, be ready for him and GIVE ALL YOU CAN.

Intermediate Pupils
Gave Fine Concert

As the fitting close of a successful year the intermediate pupils of St. Francis Conservatory gave a very excellent recital last evening to their parents and many friends. Great credit is due the young people and their teachers as the technique of the difficult numbers was almost perfect. In the afternoon the primary department gave a recital which was rendered in a skillful manner by the young folks.

Following is the program of the evening.

OBJECT TO GARBAGE INCINERATOR

DuBois City Council recently let a contract for a garbage incinerator for their city and work has already been started on its erection. At last night's adjourned session of Council attorney James A. Gleason appeared on behalf of D. E. Hibner and other citizens and notified Council that they proposed asking the Clearfield county courts for an injunction restraining the erection of the incinerator at this point, claiming it would prove to be a nuisance. The contractor claims his furnace is odorless and the work will not be stopped unless the court so directs after proper hearing.

Tires and Service

HERE is one reason why we sell Firestone Tires: since Mr. Firestone is willing to endorse them with his own name, we are sure we can.

Firestone

Tires in Cord and Fabric, Firestone Tubes, Accessories, etc., have proved that they give Most Miles per Dollar of comfortable wear.

Our service gives the same standard of satisfaction and saving.
